The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 7, 8, 13, 14, & 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Van Dan Elzen 6,089,945.

Van Dan Elzen shows a yo-yo having a frictionless bearing 6, positioned on a spindle 4 between halves 25 of yo-yo members, the bearing having a smooth concave surface for supporting a string 10, which tends to urge the string toward the center of the bearing, but would allow some lateral movement of the string.

Claims 3-6, 9-12, & 15-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
